

**Towards a Catalogue of Cleveland Publishings
Western Series. 2. Preliminary Title List for
the Cleveland Western series**

Anders N. Nilsson, Nordmaling, Sweden

[Version 6 April 2026]

A first important step for a better understanding of the many Australian westerns published by Cleveland is to gather information for a catalogue of some sort. Seems this work demands some collective efforts. I now distribute freely this preliminary list with more than 2,000 titles with the hope that those who know and like these novel magazines will help me to fill in the gaps. What I now need is simply #/Author/Title for as many of the missing issues as possible. Guess there are also some errors in my list that need to be fixed. All help is most welcome for sure, and I then promise to distribute updated lists. This 2nd part takes a closer look at the Cleveland Western series, the longest of them all, seemingly starting in 1953 with issue #501 and ending in 2016 with #3054. I was earlier misled to think it started already with #301, but now know better. There are those who think that Cleveland Western started with #533 with the addition of the Indian head logo on the front cover. To me that was only a change of layout of the series, better defined by its continuous numbering. It was a genre-mixed series from the start, and the last of Robert Dudgeon's (= Frank S. Greenop) crime stories came in #596. I've marked the crime stories with a star before the title. Initially, the series included also stories of American origin, most of them taken from Pyramid Books. The last American title was seemingly #724 by W.C. Tuttle.
